If you move into your residence on a day other than the first day of a month you will pay a pro-rated rent by the day, but your rental period will still end on the last day of each month.

As a rental period is always a full month, Tenants will always be responsible for the full rental period payment, even if they decide

to move out prior to the end of the rental period during their last month of occupancy. For example: written notice given on the 15th of October will not take affect until the 30th of November. The Tenant will be financially responsible until the end of that following month. There will be no pro-ration of you final month's rent.

See Credit Reporting Information Sheet attachment for more information on how your rental payments can impact your credit.

1.7 PARTIAL PAYMENT

No payment by Tenant or receipt by Landlord of a lesser amount than the correct rent shall be deemed to be other than a payment on account, and no endorsement or statement on any check or other communication accompanying a check for payment of any amounts payable hereunder shall be deemed an accord and satisfaction, and Landlord may accept such check as partial payment without prejudice to Landlord's right to recover the balance of any sums owed by Tenant hereunder or to pursue against Tenant any additional remedies available under this Lease or provided at law or in equity. This provision and the provisions to pay all sums under this Lease shall survive the Lease.

1.8 CREDIT CONSIDERATION FOR MULTIPLE PARTIES

The Tenants acknowledge that the Landlord has executed this lease based on the combined financial resources and credit of all of the Tenants. The Landlord would not sign this lease with any one of the Tenants individually. Therefore, it will be a breach of the lease when any Tenant vacates the unit, if that Tenant is not replaced by another Tenant, approved by the Landlord, with financial resources and credit equal to that of the vacating Tenant.

1.9 RENT INCREASE

A fixed term lease locks the rent during the initial term of the lease, however, after the end of the initial lease term the rental rate may be reassessed. Any increase of rent shall take effect on the first day of the rental period following not less than 60 days actual notice to the Tenant. Actual notice shall be written notice which may be either, emailed, hand-delivered or mailed to the Tenant's last known address.

1.10 SECURITY DEPOSIT

The total security deposit at the time of execution of this Lease Contract for all residents in the apartment is \$1,050.00, due on or before the date this Lease Contract is signed. We will hold the security deposit for the term of the tenancy and, upon termination of the tenancy, reserve the right to use the security deposit, or portions thereof, to cover any charges related to your performance of this Lease Contract, including, but not limited to, cleaning, repair of damages, unpaid rent, late fees, and returned check fees.

The security deposit shall secure the performance of the Tenant's obligations under this lease and State law. We may retain all or a portion of the security deposit to remedy defaults of Tenant, including but not limited to, 1) nonpayment of rent, 2) damage to the property of the Landlord unless the damage is the result of normal wear and tear, or the result of actions or events beyond the control of the Tenant, 3) nonpayment of utility or other charges which the Tenant is required to pay directly to the Landlord or to a utility, and 4) expenses required to remove from the apartment articles abandoned by the Tenant.

Under no circumstance may your security deposit be used to pay last months rent.

The notice shall itemize any deductions from the security deposit.

Moreover, based on damage, unpaid rents, or other financial obligations at your time of move-out you may owe more than your security deposit. If that is the case any financial obligation following your move-out must be paid to us within 14 days of your move-out

date.

1.12 MOVE OUT PRIOR TO END OF LEASE TERM

You are financially obligated to the property for a minimum of the initial lease term. Should you vacate prior to the completion of the initial lease term your financial obligation to pay rent, as well as any and all utilities or other charges agreed in the lease, will continue until the last day of the lease, or until a new tenant moves in, which ever comes first.

In addition you will be charged at least 50% of one months rent as a new tenant placement fee to cover the costs of advertising, screening and securing a new tenant.

1.13 MOVE IN INSPECTION

We will conduct a move-in inspection of the property complete with photos and written notes. The condition of the property at move-out will be compared to the move-in inspection to determine if withholding of any or all of your security deposit is warranted.

This move-in inspection will be shared with you to review and sign prior to your move-in, but will be utilized as a move-in condition baseline whether reviewed and signed by you or not. The responsibility to review and verify the move-in inspection report is yours alone.

After you move-in, should you find any defect or issue that is not documented in your move-in report you must document, photograph and report such concerns to the office no later than one week after the start date of the lease agreement.

You are responsible for any and all damage to the property caused by both you and your guests during your tenancy.

The Tenant will be financially responsible until the end of that following month. Your last day of financial obligation will always be the last day of a month, even if you move partway through a month.**

Surrender, abandonment, and eviction ends your right of possession for all purposes and gives us the immediate right to: clean up, make repairs in, and relet the apartment; determine any security deposit deductions; and remove property left in the apartment. Surrender, abandonment, and eviction affect your rights to property left in the apartment. Surrender, abandonment, and eviction do not affect our mitigation obligations.

Cleaning

You must thoroughly clean the unit, including doors, windows, furniture, bathrooms, kitchen appliances, patios, balconies, garages, carports, and storage rooms. If you don't clean adequately, you'll be liable for reasonable cleaning charges.

Charges

You'll be liable for the following charges, if applicable: unpaid rent; unpaid utilities; unreimbursed service charges; repairs or other damages, excluding ordinary wear and tear; replacement cost of our property that was in or attached to the apartment and is missing; unreturned keys; missing or burned-out light bulbs; removing or rekeying unauthorized security devices or alarm systems; agreed reletting charges; packing, removing, or storing property removed or stored; removing illegally parked vehicles; animal-related charges; government fees or fines against us for violation (by you, your occupant, or guest) of local ordinances relating to smoke detectors, false alarms, recycling, or other matters; late-payment and returned-check charges, plus attorney's fees, court costs, and filing fees actually paid; and other sums due under this Lease Contract.

Deposit Refund

We'll mail to you at your last known address your security-deposit refund (less lawful deductions) and an itemized accounting of any deductions no later than 14 (fourteen) days after the Lease Contract termination and delivery of possession to us.

Property Showings After Notice

Once you provide notice that you intend to vacate the property we will immediately advertise the property with the intention of re-renting the property. As part of this re-renting process we will need to enter the property from time to time and show it to prospective tenants. We will provide you a notice of intent to enter via text and email and at least 48 hours prior to the showing appointment. If for any reason you restrict access to the property, provide an unwelcoming atmosphere through verbal or physical behavior, fail to maintain the property such that it can be reasonably be shown for the purpose of re-rental, or engage in other intentional or unintentional actions that result in our inability to show the

property and/or result in our inability to promptly re-rent the property, such that rental income during the month after you vacate the premise is lost, we reserve the right to charge your tenant account lost rental income damages and withhold these charges from your security deposit refund to cover this unpaid rent.

By initialing below, you acknowledge and agree to the terms in Section 3.

General Clauses

4.1 RELEASE FROM LEASE CONTRACT

Unless you're entitled to terminate this Lease Contract, you won't be released from this Lease Contract for any reason, including, but not limited to, voluntary or involuntary school withdrawal or transfer, voluntary or involuntary job transfer, marriage, separation, divorce, reconciliation, loss of co-residents, loss of employment, bad health, or death.

Military Personnel Clause

You may terminate the Lease Contract if you enlist or are drafted or commissioned and on active duty in the Armed Forces of the United States. You must give us written notice of termination, 30 (thirty) days prior to the termination date. You must provide us proof that you qualify for this limited exception.

Replacements and Subletting

Replacing a resident, subletting, or assignment is allowed exclusively with our written consent.

If we approve a replacement resident, at our option, the replacement resident must sign this Lease Contract with or without an increase in the total security deposit; or the remaining and replacement residents must sign an entirely new Lease Contract.

4.2 DEFAULT BY RESIDENT

You'll be in default if you or any guest or occupant violates any terms of this Lease Contract including but not limited to the following violations: failure to pay rent or other amounts that you owe when due; you or any guest or occupant violates the apartment rules, or fire, safety, health, or criminal laws, or engages in dangerous behavior, regardless of whether or where arrest or conviction occurs; you abandon the apartment; you give incorrect or false answers in rental application or you provide false or fraudulent documentation requested by us; you or any occupant is arrested, convicted, or given deferred adjudication for a felony offense; any illegal drugs or paraphernalia are found in your apartment; you or any guest or occupant engages in any prohibited conduct; or you or any occupant, in bad faith, makes an invalid complaint to an official or employee of a utility company or the government. If you are in default for any reason, we may file a

suit for Lease Contract termination after giving you fourteen (14) days written notice of Lease Contract termination. Such notice will state that your Lease Contract will terminate fourteen (14) days of your receipt of the notice, unless the breach is remedied within the fourteen (14) day period.

Holdover

You or any occupant, invitee or guest must not hold over beyond the date contained in your move-out notice to vacate (or beyond a different move-out dated agreed to by the parties in writing). If a holdover occurs, then we shall be entitled for damages for the hold-over period plus any expenses incurred due to the breach of this condition of the Lease Contract.

If Tenant should hold over and remain in possession of the leased premises after the expiration of this lease, without Landlord's written consent, it shall not be deemed or construed to be a renewal or extension of this lease, but shall only operate to create a tenancy at will.

Other Remedies

If your rent is delinquent, you immediately forfeit all rights to occupy the apartment any longer, and if you have not vacated the unit by the date specified in the Lease Contract termination notice, you are guilty of a misdemeanor. Each day of your unlawful presence in the apartment constitutes a separate offense. We may report unpaid amounts to credit agencies. Upon your default and early move-out, you will pay us any amounts stated to be rental discounts, in addition to other sums due. Upon your default, we have all other legal remedies, including suit for Lease Contract termination, possession, damages, rent, and all other monies due. We may turn any returned checks over to law enforcement officials for prosecution according to law.

4.3 DISCLOSURE OF INFORMATION AUTHORIZATION

From time to time Landlords will receive requests for information relating to both current and former tenants. Tenant authorizes Landlord, its components, offices, employees, contractors, agents, and assignees, to disclose any information or records related to tenant. Tenant understands this may include and is not limited to reports, payment history, and notes of any kind, contained in any record keeping system maintained by or on behalf of Landlord. The landlord retains the discretion to decide if particular records or information are within the scope of this Waiver; and that Landlord has no control over how the Recipient will use or disseminate my information. Tenant agrees to release and hold harmless Landlord, its components, offices, employees, contractors, agents, and assignees, from any and all claims of action or damages of any kind arising from, or in any way connected to, the release or use of any information or records pursuant to this Waiver.

4.4 WAIVER

A waiver by Landlord of any default on the part of Tenant shall not be considered or treated as a waiver of any subsequent or other default.

4.5 WAIVER OF SUBROGATION

The Tenant hereby releases the Landlord from any and all liability or responsibility to the Tenant (or anyone claiming through or under Tenant by way of subrogation or otherwise) for any loss or damage to property caused by fire or any of the extended coverage

or supplementary contract casualties, even if such fire or other casualty shall have been caused by the fault or negligence of the Landlord (or anyone for whom such party may be responsible), provided, however, that the release shall be applicable and in force and effect only with respect to loss or damage occurring during such time as the policies of the releasing party contain a clause or endorsement to the effect that any such release shall not adversely affect or impair the policies or prejudice the rights of the releasing party to recover thereunder.

4.6 JOINT AND SEVERAL LIABILITY

All the Tenants hereunder are jointly and severally liable for the performance of all of the obligations hereunder. Furthermore, this agreement shall be binding upon the heirs, assigns and legal representatives of the Landlord and Tenant hereunder.

4.7 PARTIAL INVALIDITY

If any term or provision of this lease is held invalid or unenforceable, said invalidity shall not affect the remainder of this lease which shall remain valid and enforceable to the fullest extent.

4.8 TIME IS OF THE ESSENCE

It is understood and agreed that time and strict performance of all of the terms herein, by the Tenant to be performed and reserved, shall be of the essence.

4.9 CONTRACT TERMINATION AND DISPUTE

This Lease Contract may only be amended, waived, or terminated by our representatives in writing. Any oral promises, representations or agreements by our representatives shall not be considered legally binding. No action or omission of our representative will be considered a waiver of any subsequent violation, default, or time or place of performance. Our not enforcing or belatedly enforcing written notice requirement, rental due dates, acceleration, liens, or other rights isn't a waiver under any circumstances.

Waiver of Jury Trial

To minimize legal expenses and, to the extent allowed by law, you and we agree that a trial of any lawsuit based on statute common law, and/or related to this Lease Contract shall be to a judge and not a jury.

Force Majeure

We shall be excused from performance of obligations if we are prevented from fulfilling such obligations by an act of God, strikes, epidemics, war, acts of terrorism, riots, or other occurrence, which is beyond our control.

By initialing below, you acknowledge and agree to the terms in Section 4.

Get “credit” for paying your rent on time

We're an Experian RentBureau community

We believe that renters should get credit for managing the payments for the place they call home. That's why we've partnered with Experian RentBureau to include positive rental payment data in Experian credit reports.

In the past, only negative rental payment data such as evictions and collections were reported to consumer reporting agencies. Therefore, your on-time rental payments were never included in credit reports, unlike credit card, mortgage or car payments that help raise credit scores when paid on time.

The addition of positive rental payment data in Experian credit reports can be a tremendous benefit to anyone who rents, especially non-credit-active, cash-based consumers.

We recognize the value of having a positive rental payment history, and we want to provide our residents with this unique opportunity to get credit for their on-time rental payments.

[Answers to common questions about rental payments on your credit report](#)

What type of rental payment information is on my Experian credit report?

Only positive rental payment history has been added to your Experian credit report. If available, the 25 most recent months of rental payment history information will be displayed. Negative

rental payment information, such as a collection account, is already reported to credit reporting companies through collection agencies.

Will my rental payments affect my credit score?

Your rental payment information will be included as part of your standard credit report and may be incorporated into certain credit scores, such as VantageScore® and Experian's PLUS Score®.

For more information on VantageScore, please visit www.experian.com/getyourvantagescore.

Can I improve my credit by paying my rent on time?

Yes. The inclusion of positive rental payment history within Experian credit reports allows you to establish or rebuild your credit through timely rental payments. Better credit means qualifying for credit products you deserve.

"Consumers who struggle to build a solid credit profile may soon get a boost by simply paying their monthly rent on time."

— *The Huffington Post*

How will lenders use my rental payment information?

Lenders may consider your rental obligation when determining your ability to repay new debt. Each credit grantor decides what standards you must meet for it to grant you credit.

Why does my apartment lease appear as an installment loan?

Your apartment lease is considered installment credit, similar to an auto loan, which consists of paying regular installments of a fixed amount over a set period of time, usually measured in months or years.

Why does my credit report show a credit limit for my apartment lease when it is not a line of credit?

Experian[®] calculates an "original loan amount," which represents the sum of the total payments over the entire period of the lease agreement. For example, a 12-month lease with a \$1,000 monthly rental payment would add up to \$12,000 (12 months x \$1,000). We are aware that some credit report systems display this amount as a credit limit. However, this does not imply that the consumer received a loan or has a line of credit.

Why does my credit report show an outstanding balance for my apartment lease when I don't owe any money?

An outstanding balance or "current balance" amount on your rental payment history represents the sum of all rental payments left on the lease. The balance denotes the total amount you will be responsible for over the remainder of the lease. As you pay your rent each month, the outstanding balance will continue to decrease.

What should I do if I find an error or encounter a problem with my credit report?

All disputes are processed by Experian's National Consumer Assistance Center.

If you have a dispute or a concern, you can call Experian toll-free at 1 888 EXPERIAN (1 888 397 3742) or you can access a dispute form online at www.experian.com/disputes/main.html.

Request a copy of your personal credit report directly from Experian and review it carefully. If you find an error, simply dispute the information immediately online or call or write to Experian following the instructions provided with your report.

Upon receiving your dispute, Experian's National Consumer Assistance Center will investigate, either resolve or affirm the dispute, and send you the results of the investigation. This dispute process can take up to 30 days from the date the dispute is received.

Protect Your Family From Lead in Your Home

Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have **lead-based paint**? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- How lead gets into the body
- How lead affects health
- What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Remove shoes or wipe soil off shoes before entering your house.

Lead Gets into the Body in Many Ways

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Women of childbearing age should know that lead is dangerous to a developing fetus.

- Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

Health Effects of Lead

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

- Nervous system and kidney damage
- Learning disabilities, attention-deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems
- Muscle and joint pain

Check Your Family for Lead

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

Where Lead-Based Paint Is Found

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally-assisted, federally-owned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at epa.gov/lead.

¹ "Lead-based paint" is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm), or more than 0.5% by weight.

² "Lead-containing paint" is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

Identifying Lead-Based Paint and Lead-Based Paint Hazards

Deteriorating lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. **Lead-based paint** may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors
- 250 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips—which you can see—and lead dust—which you may not be able to see—both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- A lead-based paint **inspection** tells you if your home has lead-based paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - Portable x-ray fluorescence (XRF) machine
 - Lab tests of paint samples
- A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
 - Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
 - Sample dust near painted surfaces and sample bare soil in the yard
 - Get lab tests of paint, dust, and soil samples
- A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

Checking Your Home for Lead, continued

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.³

³ Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

What You Can Do Now to Protect Your Family

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children eat nutritious, low-fat meals high in iron, and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

Reducing Lead Hazards

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

- In addition to day-to-day cleaning and good nutrition, you can **temporarily** reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover lead-contaminated soil. These actions are not permanent solutions and will need ongoing attention.
- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or state-certified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement professional. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Reducing Lead Hazards, continued

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors
- 250 $\mu\text{g}/\text{ft}^2$ for interior windows sills
- 400 $\mu\text{g}/\text{ft}^2$ for window troughs

For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 14 and 15), or visit epa.gov/lead, or call 1-800-424-LEAD.

Renovating, Repairing or Painting a Home with Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, *The Lead-Safe Certified Guide to Renovate Right*

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- **Avoid renovation methods that generate large amounts of lead-contaminated dust.** Some methods generate so much lead-contaminated dust that their use is prohibited. They are:
 - Open-flame burning or torching
 - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment
 - Using a heat gun at temperatures greater than 1100°F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects, visit epa.gov/getleadsafe, or read *The Lead-Safe Certified Guide to Renovate Right*.

Other Sources of Lead

Lead in Drinking Water

The most common sources of lead in drinking water are lead pipes, faucets, and fixtures.

Lead pipes are more likely to be found in older cities and homes built before 1986.

You can't smell or taste lead in drinking water.

To find out for certain if you have lead in drinking water, have your water tested.

Remember older homes with a private well can also have plumbing materials that contain lead.

Important Steps You Can Take to Reduce Lead in Drinking Water

- Use only cold water for drinking, cooking and making baby formula. Remember, boiling water does not remove lead from water.
- Before drinking, flush your home's pipes by running the tap, taking a shower, doing laundry, or doing a load of dishes.
- Regularly clean your faucet's screen (also known as an aerator).
- If you use a filter certified to remove lead, don't forget to read the directions to learn when to change the cartridge. Using a filter after it has expired can make it less effective at removing lead.

Contact your water company to determine if the pipe that connects your home to the water main (called a service line) is made from lead. Your area's water company can also provide information about the lead levels in your system's drinking water.

For more information about lead in drinking water, please contact EPA's Safe Drinking Water Hotline at 1-800-426-4791. If you have other questions about lead poisoning prevention, call 1-800 424-LEAD.*

Call your local health department or water company to find out about testing your water, or visit epa.gov/safewater for EPA's lead in drinking water information. Some states or utilities offer programs to pay for water testing for residents. Contact your state or local water company to learn more.

Other Sources of Lead, continued

- **Lead smelters** or other industries that release lead into the air.
- **Your job.** If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- Old **toys** and **furniture** may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.⁴
- Food and liquids cooked or stored in **lead crystal** or **lead-glazed pottery or porcelain** may contain lead.
- Folk remedies, such as "**greta**" and "**azarcon**," used to treat an upset stomach.

⁴ In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint. In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products.

IMPORTANT!

Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children and babies even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards. Generally, lead-based paint that is in good condition is not a hazard (see page 10).
